

TABLE OF CONTENTS

Introduction	1
Objectives	17
Chapter 1	Phenotypic plasticity in an ant with strong caste genotype association	19
Chapter 2	Sex-biased dispersal creates spatial genetic structure in a parthenogenetic ant with a dependent-lineage reproductive system.....	27
Chapter 3	Detection of cryptic sex in automictic populations: theoretical expectations and a case study in <i>Cataglyphis</i> desert ants.....	39
Chapter 4	Repeated evolution of queen parthenogenesis and social hybridogenesis in <i>Cataglyphis</i> desert ants	75
Discussion	113
Annex 1	Genetic determination of female castes in a hybridogenetic desert ant ..	127
Annex 2	Evolution of hybridogenetic lineages in <i>Cataglyphis</i> ants	137
Annex 3	Population structure and sociogenetic organisation in a species with ergatoid queens, the desert ant <i>Ocymyrmex robustior</i>	191
