<b>Acknowledgements</b> .....	<b>3</b>
<b>Financial support</b> .....	<b>5</b>
<b>Abstract</b> .....	<b>6</b>
<b>Table of Contents</b> .....	<b>7</b>
<b>List of Tables</b> .....	<b>11</b>
<b>List of Figures</b> .....	<b>12</b>
<b>List of Abbreviations</b> .....	<b>13</b>
<b>Chapter 1. General introduction and rationale for this thesis</b> .....	<b>16</b>
1.1 Attention-Deficit/Hyperactivity Disorder, Autism Spectrum Disorder and their co-occurrence: an overview .....	16
1.1.1 <i>Diagnostic criteria, differential diagnosis and comorbidity</i> .....	16
1.1.2 <i>Epidemiology and outcome</i> .....	21
1.1.3 <i>Aetiology</i> .....	23
1.2 Cognitive profile and neuropsychological impairments in ADHD, ASD and the co-occurring presentation.....	27
1.2.1 <i>Social cognition</i> .....	28
1.2.2 <i>Executive functioning and attentional profile</i> .....	30
1.2.3 <i>The role of response inhibition in the discussion of the overlap/distinctiveness between ASD and ADHD</i> .....	35
1.3 Shared and specific structural and functional brain abnormalities between ADHD and ASD ...	41
1.3.1 <i>Volumetric and surface-based measures findings</i> .....	42
1.3.2 <i>White matter microstructure abnormalities</i> .....	49
1.3.3 <i>Functional brain abnormalities</i> .....	52
1.4 The aims of this thesis .....	57
<b>Chapter 2. Experimental sample: clinical and neuropsychological characterization. ....</b>	<b>59</b>
2.1 Participants .....	59
2.2 Clinical assessment.....	61
2.3 Neuropsychological assessment .....	62
2.3.1 <i>Intellectual functioning (WISC-IV)</i> .....	62
2.3.2 <i>Alertness (TAP)</i> .....	63
2.3.3 <i>Divided Attention (TAP)</i> .....	63
2.3.4 <i>Go/No-Go (TAP)</i> .....	64
2.3.5 <i>Numerical Counting Stroop task</i> .....	64
2.3.6 <i>Digit Span (WISC-IV)</i> .....	65
2.3.7 <i>Corsi Block-Tapping</i> .....	65

2.3.8 Free –recall learning task .....	66
2.3.9 Revised Wisconsin Card Sorting Test (RCST).....	66
2.3.10 Tower of London.....	66
2.3.11 Verbal fluency.....	67
2.3.12 Spaceship Delay Task.....	67
2.3.13 Stop-signal task.....	68
2.4 Statistical analyses .....	70
2.5 Results.....	71
2.5.1 Clinical assessment.....	71
2.5.2 Neuropsychological assessment .....	74
<b>Chapter 3. Shared and specific grey matter volume abnormalities between ADHD and ASD.....</b>	<b>80</b>
Abstract.....	82
3.1 Introduction.....	83
3.2 Materials and methods.....	85
3.2.1 Participants.....	85
3.2.2 Demographic data analysis .....	86
3.2.3 Anatomical image acquisition .....	87
3.2.4 Image quality control and pre-processing.....	87
3.2.5 VBM statistical analysis .....	88
3.3 Results.....	89
3.3.1 Participant characteristics .....	89
3.3.2 Analysis of total brain and total GMV/ WMV .....	90
3.3.3 VBM analysis of regional grey matter volume differences.....	91
3.3.4 Disorder-specificity of grey matter volume abnormalities.....	93
3.4 Discussion.....	95
<b>Chapter 4. Shared and specific white matter microstructure abnormalities between ADHD and ASD.....</b>	<b>103</b>
Abstract.....	105
4.1 Introduction.....	106
4.2 Materials and methods.....	109
4.2.1 Participants.....	109
4.2.2 MRI data acquisition .....	110
4.2.3 Pre-processing.....	110
4.2.4 TBSS processing .....	111
4.2.5 Statistical analysis .....	111
4.3 Results.....	112

4.3.1 Participant characteristics .....	112
4.3.2 Fractional anisotropy between-group comparison .....	113
4.3.3 Mean diffusivity between-group comparison.....	114
4.2 Discussion.....	114
<b>Chapter 5. Shared and specific inhibition-related brain activation abnormalities between ADHD and ASD.....</b>	<b>120</b>
Abstract.....	122
5.1 Introduction.....	123
5.2 Materials and methods.....	125
5.2.1 Participants.....	125
5.2.2 Functional MRI paradigm: the stop-signal task.....	126
5.2.3 Demographic and behavioural data analysis.....	127
5.2.4 FMRI data acquisition.....	128
5.2.5 FMRI data analysis.....	128
5.3 Results.....	129
5.3.1 Demographic data and head motion .....	129
5.3.2 Stop-signal task performance .....	131
5.3.3 Within-group brain activations during successful inhibition.....	131
5.3.4 Between-groups comparison .....	132
5.4 Discussion.....	135
<b>Chapter 6. General discussion and future directions.....</b>	<b>141</b>
6.1 Summary of studies .....	141
6.2 Absence of between-group differences in total brain volume, total grey matter volume and total white matter volume .....	144
6.3 Grey matter volume abnormalities in the precuneus and the thalamus in ADHD and in the precentral gyrus in ASD .....	145
6.4 Shared and specific white matter microstructure abnormalities in the corpus callosum.....	147
6.5 Reactive inhibition impairments in ADHD, but not ASD.....	148
6.6 Response inhibition places different demands on the fronto-parietal network in ASD and ADHD .....	149
6.7 Strengths and limitations of the studies.....	150
6.7.1 Strengths .....	150
6.7.2 Limitations .....	151
6.8 Implications of the findings and directions for future research.....	152
