<b>Notations</b>	<b>7</b>
<b>Introduction</b>	<b>9</b>
<b>1 Useful notions</b>	<b>13</b>
1.1 Some distributions on the sphere . . . . .	14
1.2 Le Cam's theory . . . . .	17
1.3 Invariance . . . . .	22
1.4 Billingsley's Theorem . . . . .	24
<b>2 Testing uniformity against a semiparametric extension of the FVML distributions</b>	<b>27</b>
2.1 Introduction . . . . .	28
2.2 Optimal testing under specified modal location . . . . .	30
2.3 Optimal testing under unspecified modal location . . . . .	32
2.4 Simulations . . . . .	37
2.5 Proofs . . . . .	39
<b>3 Testing uniformity against a semiparametric extension of the Watson distributions</b>	<b>43</b>
3.1 Introduction . . . . .	44
3.2 Testing uniformity under specified location . . . . .	45
3.3 Testing uniformity under unspecified location: the Bingham test . . . . .	49
3.4 Testing uniformity under unspecified location: single-spiked tests . . . . .	52
3.5 Finite-sample comparisons . . . . .	58
3.6 Applications . . . . .	60
3.7 Proofs . . . . .	63
<b>4 High-dimensional behaviour of the Rayleigh and Bingham tests under general rotationally symmetric distributions</b>	<b>77</b>
4.1 Asymptotic non-null behaviour of the Rayleigh test . . . . .	78
4.2 Asymptotic non-null behaviour of the Bingham test . . . . .	83
4.3 Proofs . . . . .	92
<b>Conclusion</b>	<b>113</b>
<b>A Asymptotic distribution under <math>P_{\theta_n, \kappa_n, f}^{(n)}</math>, with <math>\kappa_n = \tau \sqrt{p/n}</math>, of the Rayleigh test statistic in the fixed-<math>p</math> case</b>	<b>117</b>
<b>B Universality of the asymptotic high-dimensional distribution of the Rayleigh test in the FvML case</b>	<b>119</b>

<b>C Consistency of the Bingham test when <math>n^{1/4}\kappa_n/p_n^{3/4} \rightarrow \infty</math> in the high-dimensional FvML case</b>	<b>125</b>
<b>Bibliography</b>	<b>129</b>
