

# Table of contents

<b>Introduction</b>	.....	1
<b>Objectives</b>	.....	10
<b>Chapter 1</b>	Phylogenetic history, relationships and geographical dispersion of Apicotermitinae.....	15
<b>Chapter 2</b>	Anatomical specializations of the gizzard in Apicotermitinae: taxonomical and functional implications .....	55
<b>Chapter 3</b>	Crop-gizzard content and volume variations among afrotropical Apicotermitinae .....	93
<b>Chapter 4</b>	Isotopic niches in Apicotermitinae: differentiation between habitats and biogeographical origin .....	121
<b>Discussion</b>	Explaining the Apicotermitinae diversity: integrative analysis.....	139
<b>General Conclusions</b>	Advances in Apicotermitinae understanding .....	150

# List of Figures, Table and Box

*(The list does not include specific illustrations for each chapter)*

<b>Figure 1</b>	Simplified phylogeny of termite feeding evolution .....	2
<b>Box 1</b>	Functional feeding classifications.....	5
<b>Figure 2</b>	Soil-feeding termites: classical appearance, nests and habitats .....	6
<b>Figure 3</b>	Biological and ecological aspects of Apicotermitinae .....	9
<b>Table 1</b>	Schematic overview of data set used in the integrative analysis .....	142
<b>Figure 4</b>	Graphical representation of the main results of the thesis .....	151
